PLSD Finishes Improvement Project

PLSD completed expansion portion of the project over the summer and fall by connecting 56 additional cabins to the sanitary sewer system. The system is fully functional and operating now. PLSD is working with the general contractor to finish a few outstanding items related to remediation work followed by a state inspection for final certification. It's been a long journey, but worth it. Thanks to all of you for your cooperation and patience!

PLSD Contracts For Snow Removal

With technology integrated in the new main lift stations, PLSD can monitor them remotely. With this new feature, PLSD will no longer need to maintain an open road to each of the 13 lift stations after a substantial snow fall. If a lift station repair is needed, a path will be cleared by our snow removal contractor to allow access. If you plan to use your cabin during the winter months and will need access, here are some area contractors available for snow removal: Woodchuck Tree Removal & Service (605.265.0944) and Benike Masonry (605.880.5459).

PLSD Approves 2025 Budget & Fee Schedule

The Board reviewed and approved the 2025 budget with no increase to the semi-annual fees at this time. We also reviewed our fee schedule and are pleased to report that fees will not increase in 2025. Please see our [Rates and Fees](#) section under [About Us](#) on our website.

PLSD Shares Freezing Sewer Vent Pipe Prevention

As it has turned into winter at the lake, we'd like to share some basic information on how to prevent your sewer vent from freezing during these coming cold months. The article is taken from a [blog](#) on HomeFixMagic website.

PLSD Allows Sump Pump Discharge During Winter

PLSD Ordinance 13 allows sump pumps to discharge into the sanitary sewer system November 1st – April 1st. Customers in need of sump pumps over the winter months should move their sump pump discharge hoses to the outside by April 1st. PLSD reminds you that you must complete a sump pump permit as required by the ordinance. You can find the permit form under the Customer Information section under [Rates and Fees](#).
